

R marks

Claims 26 is cancelled. Claims 2, 17 and 20 are amended. New claims 27 and 28 are added.

An appendix is attached with marked-up versions of the amended claims. Additions are shown with underlining and deletions are shown with strike-through.

No new matter is added.

Favorable consideration of the present claims is respectfully awaited.

Respectfully submitted,

Tyler A. Stevenson

Attachment: Appendix to Preliminary Amendment

APPENDIX to PRELIMINARY AMENDMENT

Marked-up Claims

2. (amended) A compound of formula (I) or (III) according to claim 1, wherein Q₁ is derived from an unsubstituted or substituted triazine, from a mono or multifunctional alkylating agent, from a mono or polycarboxylic acid or acid derivative, from a mono or polyepoxide, from a mono or polyisocyanate or from POCl₃, SO₂Cl₂, BCl₃ or SiCl₄.

17. (amended) A polymerizable composition, comprising
a) at least one ethylenically unsaturated monomer or oligomer, and
b) a compound of formula (I), (II) or, (III), ~~(IV)~~, ~~(V)~~, ~~(VI)~~ or ~~(VII)~~ according to claim ~~1~~ or 16.

20. (amended) A process for preparing an oligomer, a cooligomer, a polymer or a copolymer (block or random) by free radical polymerization of at least one ethylenically unsaturated monomer or oligomer, which comprises (co)polymerizing the monomer or monomers/oligomers in the presence of an initiator/regulator compound of formula (I), (II) or, (III), ~~(IV)~~ or ~~(V)~~ according to claim ~~1~~ or 16 under reaction conditions capable of effecting scission of the O-C bond to form two free radicals, the •C radical being capable of initiating polymerization.

27. (new) A polymerizable composition, comprising
a) at least one ethylenically unsaturated monomer or oligomer, and
b) a compound of formula (IV), (V), (VI) or (VII) according to claim 16.

28. (new) A process for preparing an oligomer, a cooligomer, a polymer or a copolymer (block or random) by free radical polymerization of at least one ethylenically unsaturated monomer or
